Funny, wise, learned and compulsive - GQ

Bill Bryson turns away from travelling the highways and byways of middle America, so hilariously depicted in his bestselling *The Lost Continent*, *The Life and Times of the Thunderbolt Kid* and *Notes from a Big Country*, for a fast, exhilarating ride along the Route 66 of American language and popular culture.

In *Made in America*, Bryson tells the story of how American arose out of the English language, and along the way, de-mythologizes his native land - explaining how a dusty desert hamlet with neither woods nor holly became Hollywood, how the Wild West wasnt won, why Americans say lootenant and Toosday, how they were eating junk food long before the word itself was cooked up - as well as exposing the true origins of the words G-string, blockbuster, poker and snafu.
